

## **HIGHWAY CONSTRUCTION**

### **US 50/SH 135 IN Gunnison**

APC Southern Construction Company will begin work on a Colorado Department of Transportation project to improve US 50 and SH 135 through and North of Gunnison. The work begins on June 4, 2007 and is scheduled for completion on October 31, 2007.

The first phase of the project consists of removal of concrete curb ramps at intersections and replacement of these with new ramps that better comply with current ADA\* requirements. This work will be on Tomichi Avenue, from New York Avenue to Loveland Street, and on Main Street, from Virginia Avenue to Spencer Avenue.

When this is complete, Tomichi Avenue and Main Street will be milled to a 2-inch depth and paved with 2 inches of new asphalt. SH 135 will also receive a 2-inch overlay (with no prior milling) from the north end of town to mile marker 5.8. After the asphalt paving is complete, crews will re-stripe the highways and install some sections of new guardrail.

Work hours are Monday through Friday, 6:30 A.M. to 7:30 P.M. NO weekend or holiday work is planned. During work hours, motorists will encounter various single lane closures and periodic parking restrictions; some travel delay should be expected. All business access will be maintained, but may be altered temporarily.

CDOT and APC Southern greatly appreciate motorists' patience and safe driving through the work zone.

Questions/Comments? Those with questions or wanting job information may call the project hotline at 970.596.6322. For information about other CDOT projects statewide, log on to [www.cotrip.org](http://www.cotrip.org) or cal 511 from anywhere in the state.
